

Kirkham Park BMX Facility

Kirkham Park BMX, New South Wales – this brand-new BMX facility adds to Camden’s first-class sporting facilities and enables the area to host international level events. Poised to be the destination for high-calibre events, this will also be a training venue for all levels of BMX racing, as well as a recreational venue for the local community. The facility includes an 8-metre start hill, and off-road sprint and recreational areas.

Treadwell was engaged to supply the grating for bicycle access to the start hill.

Project Challenges

- The decking surface had to be uniform, without joint protrusions, to avoid any slips and trips.
- The decking would be subject to heavy traffic.
- Decking would be installed in an elevated structure.

PROJECT INFORMATION

Project Category:	Bicycle ramp
Scope of Work:	Supply FRP grating
Treadwell Products:	ACCESS SYSTEMS GratEX® FRP Mini Mesh Grating

Treadwell Solution:

1

GratEX® FRP grating is constructed as a large single piece panel, and can be installed such that it forms a uniform space, without large gaps between panels, creating a seamless surface.

2

GratEX® FRP grating is constructed with an anti-slip surface, providing superior slip resistance.

3

Constructed from optimum glass to resin ratio, Treadwell’s FRP is durable and able to withstand heavy weight loadings.

4

Being lightweight and easy to install, FRP is very manageable during construction.

5

Given the nature of FRP, any system utilising it is virtually maintenance free, keeping maintenance costs to a minimum.

OFFICES

ABOUT TREADWELL

At Treadwell Group, our core business divisions have been developed utilising the latest fibreglass reinforced plastic (FRP) technology. With constant innovation and evolution of our offerings, we grow in competence with each experience in delivering unparalleled solutions to a diversified index of industries which include the water and wastewater, mining, oil and gas, public infrastructure, marine sectors. The progression of our products has been focused on ensuring extended design life in varied applications, enabling us to support our continuing commitment to satisfy and add value to our client's endeavours.
