

Project Challenges

- Installation was on challenging terrain; the material had to be lightweight to be easily managed.
- Installation was dependent on weather.
- Material had to have fire retardant properties as an added safety feature, being exposed to Australian summers.

PROJECT INFORMATION Project Category: Recreational Public Infrastructure Scope of Work: Supply GratEX® panels and stair treads Treadwell Products: EX-Series® GratEX® FRP Micro Mesh Grating & Stair Treads

Treadwell Solution:

The depth of GratEX $^{\circ}$ stair treads can be customised to accommodate stair landings.

Treadwell's FRP products are lightweight yet durable, and very easy to manage for quick installations.

GratEX® FRP Micro Mesh grating panels and stair treads are designed to be corrosion resistant, anti-slip and constructed with fire retardant additives, making it ideal for this outdoor application

FRP is simply fabricated and modified on site. This means there is no need for any hot works permit.

Given the nature of FRP, any system utilising it is virtually maintenance free, keeping maintenance costs to a minimum.
